

Size chart

Kids Sizing Rules:

Where most of the measurements lie - then that is the size

Check Vertical trunk - might be tall & skinny = push up a size - put in size of Vertical trunk

If most of the measurements are above the middle - push them up a size as they will grow

Plump children require a looser fit - go up a size - please make a discreet note next to such children and alterations to the patterns can be made especially for them, charge \$10 per alteration.

CHILDRENS		6c		8c				10c			12c			14c	
Chest	55	58	59	60	62	63	64	66	67	69	71	72	73	74	77
Waist	55	54	55	56	57	58	59	60	61	62	63	64	65	68	74
Hip *	58	60	62	63	65	67	68	68	70	71	73	77	78	80	84
Vertical trunk	100	105	109	110	112	116	117	120	124	125	129	130	131	135	137
ADULTS		8		10				12			14			16	
Chest	78	80	82	83	85	87	88	90	92	93	95	97	98	100	102

Hip *	85	88	92	93	95	97	98	100	102	103	105	107	108	110	112
Vertical trunk	138	142	145	146	150	155	155	158	161	162	166	170	171	174	179

Adult Sizing rules

If within many sizes - go up or down a size - depending on if is in the smaller range or larger range

Check for Long bodies - ie might be 12L - but long body = 14L

WHEN IN DOUBT - GO UP A SIZE - BETTER TO BE TOO BIG THAN TOO SMALL

If not confident with sizing - please just take measurements and we will allocate sizes accordingly
